Spokane County Sheriff's Office
Washington Public Records Act Office
1116 West Broadway Avenue
Spokane, WA 99260

October 21, 2019

To Whom It May Concern:

Pursuant to the Washington Public Records Act, I hereby request the following
records:

First off phone communications or in person communications with me must be
recorded. My phone number is 206-905-6583 and is automatically record inbound and
outbound and with auto recording legal warning on inbound and outbound. Some of you
have other numbers for me. I won't accept calls from those numbers. Any meetings or
phone conferences should include a PRA attorney and the IT person with most
knowledge of SQL.

The purpose of the request to address the commercial use prohibition on list of
persons is to conduct very complex analysis that goes far beyond what the agency
has ever done and to importantly put all of the data in a data warehouse to do
cross database analysis. Tim Clemans or InvestigateSafety LLC will not use the data
to solicit business transactions nor will it knowly share the data with others that
state they want to do so. The data will be published to the internet with the
statement taken from Washington State SOS "RCW 42.56.070(8) prohibits the Office of
the Secretary of State from providing access to lists of individuals requested for
commercial purposes. The company or person using this data agrees that lists of
individuals derived by the company or person from the information obtained from
this site will not be provided to any customer for commercial purposes in violation
of RCW 42.56.070(8)." modified to say supplying agency's name.
https://www.sos.wa.gov/corps/alldata.aspx Toby Nixon of WashingtonCOG said to "Does
the non commercial use prohibitions for list of persons and dashcam prohibit
requester from publishing those records online i filled out a bunch of forms
stating purpose of data including to put online and havent heard back" that "I do
not believe posting online falls under the definition of "commercial use", even if
you have ads on the site. But I'm not your attorney. ☺"

The request is for a copy of all HR, CAD, RMS, IAPro or similar software, Parking
Tickets, Driving citations, J-walking or similar citations, DEMS, 911 Call/radio
recorder, Internet logs, Forensics software including tables creating by the SQL
software automatically like table of table names and columns. I demand that the
data be copied to the CSV format and redactions be done in either Excel or a text
editor replacing redacted content with *R*. No exemption log is requested/wanted
unless the entire request is denied or for trade secrets/proprietary data/copyright
exemptions. I demand to review all third party notifications before notifications
are done to add more information to the notification. I records request the
contracts and data dictionaries for each effected vendor. Washington State Law
doesn't allow this request to be denied because it would take time to review and
redact. Nor does it allow the agency to claim that copying the data creates a new
record. "If any agency translates a record into an alternative electronic format at
the request of a requestor, the copy created does not constitute atab new public
record for purposes of this chapter. "

I demand that IT staff only be used to mass copy the data to CSV files using the
most efficient software they already have. I request the written name of each sql

server used and the name of each sql access tool owned by the agency or the agency's IT provider. I demand the cheapest IT employee or contactor be used that has the ability to press button on SQL access software. I demand that IT not records officer communicate with this email address about the technical aspects of the request and that attorney not records officer communicate with this email about the legal aspects of the request.

I demand a custom data invoice be provided prior to any data copying except to ensure no data covered by the request is deleted. Vendors should be able to freeze deletion for the time it takes to copy the data.

For first installment I demand the table of each table and columns per table: For Microsoft SQL this is the tables sys.objects, sys.columns, sys.types, INFORMATION_SCHEMA.COLUMNS Oracle: ALL_TAB_COLS or DBA_TAB_COLS Mysql: information_schema.columns Postgres: information_schema.columns
For second installment I demand 10 oldest rows of each table except ones released in first installment
Installments are that I request be coordinated with me with an efficient review/redact/release plan. We can work together to remove columns from the request and or rows based on Excel queries.

The requested documents will be made available to the general public, and this request is not being made for commercial purposes.

In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not.

Thank you in advance for your anticipated cooperation in this matter.

I look forward to receiving your response to this request within 5 business days, as the statute requires.

Sincerely,

TimClemans

This is a follow up to a previous request:

To Whom It May Concern:

I wanted to follow up on the following Washington Public Records Act request,
copied below, and originally submitted on Oct. 20, 2019. Please let me know when I
can expect to receive a response.

Thanks for your help, and let me know if further clarification is needed.
